### STOEGER IS...

For a century we are world-renowned for offering firearms that are extremely accurate, incredibly rugged and unwaveringly reliable at a reasonable price. In 2024, we are highlighting that legacy with our all-new M3000 Signature shotgun that elevates the looks but maintains its tough-as-nails build. In addition, we've expanded our STR series with exciting color additions throughout the line, an extreme-duty Combat X version, and caliber expansions. Be it hunting, target shooting, competition, or personal protection, Stoeger has a firearm that meets your needs, and we hope you'll join us on another 100 years of success.

**NEW** M-SERIES HUNTING SHOTGUNS — PAGES 4-21

#### Your Stoeger firearm is backed by a 5-Year Warranty.

A 5-Year Warranty guarantees that if anything should go wrong, under normal use, your firearm will be serviced for you by skilled gunsmiths at our national firearm service center. While your Stoeger is under warranty, we will assume the cost of parts, labor and shipping required to get your firearm back to you and working perfectly.

## Where Innovation and Superb Performance Meet

Armed with ideas and suggestions from experienced hunters and shooters, Stoeger turned its innovative engineers loose with a lofty assignment: turn an already great Stoeger shotgun platform into an excellent birdslaying, clays-smashing machine. They succeeded, and the M-Series is the result. These guns have super-sleek profiles, thanks to enhanced ergonomics that make them shoulder and point instinctively. Larger bolt handles, bolt-release buttons and safeties make for easier operation in cold weather when wearing gloves. Beveled ports make fast reloads a snap. Thinner grip areas and redesigned forends ensure a firm grip and positive control in any weather. Removable cheek pieces make shooting more comfortable, and improved recoil pads team with the proven Inertia Driven® system to soak up felt recoil when shooting even the stoutest loads. If you're ready to step up your shooting experience without emptying your bank account, pick up a Stoeger M-Series shotgun today.

## Model 3020

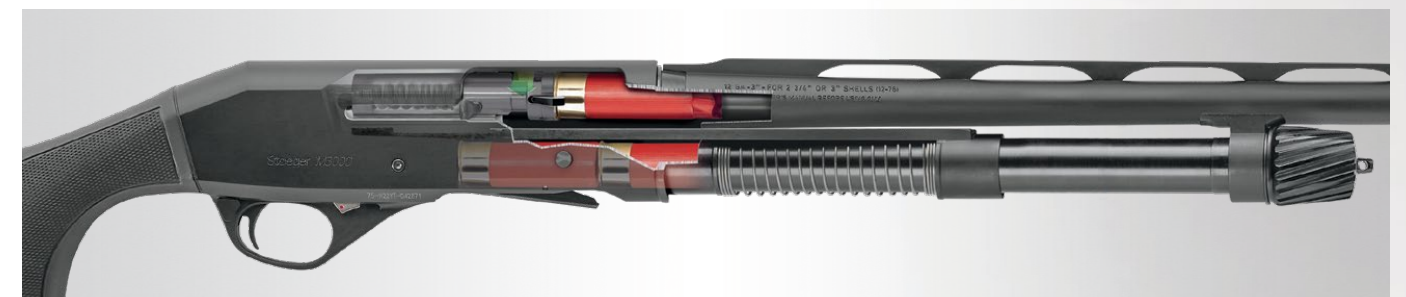

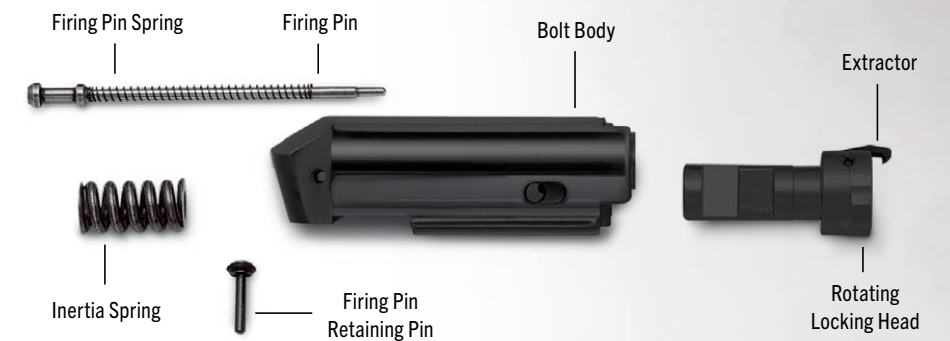

**MODEL 3020 – 12-GA, 3"**  
ITEM # 36007 Black synthetic

**INERTIA DRIVEN**

### INERTIA DRIVEN® SYSTEM

The Inertia Driven® system used in the Model 3000, Model 3500 and Model 3020 is superior to any other operating system. The rotating bolt head ensures a positive steel-to-steel lockup that provides Stoeger semi-autos with superior strength and reliability.

Near the end of the recoil cycle, chamber pressure drops to a safe level and the gun's rearward motion slows. The heavy inertia spring then thrusts the bolt assembly rearward, unlocking the rotating bolt head, extracting the spent shell from the chamber, and pulling it against the ejector.

## Model 3500

Magnum performance and reliability

A chrome-lined, ventilated rib barrel with a red-bar front sight and a screw-in modified choke comes standard on the P3500.

The rotating bolt head ensures a positive steel-to-steel lockup that provides the Stoeger pump with strength and reliability.

The P3500 and its stablemate the P3000, is packed full of features such as a chrome-lined barrel, dual-action bars and a rotating bolt head, to name a few, and is chambered to deftly handle up to 3½" magnum loads. Its ergonomic styling with sleek, thin forend profile makes for a pleasingly smooth swing and instinctive pointing. The rock-solid P3500 pump gun also comes in at a price that will make even the most budget-conscious hunter smile.

### STANDARD FEATURES

**CHOKE TUBES:** M and wrench.  
**FINISHES:** Realtree® Max-7™, Black synthetic.  
**SIGHTS:** Red-bar front sight.

The Stoeger P3500 is fitted with a checkered, synthetic stock that has an integrated swivel stud for easy sling attachment, and a recoil-absorbing, rubber buttpad. An inset Stoeger logo grip cap is under the pistol grip.

A precision-machined, anodized aluminum receiver and an easily accessible cross-bolt safety speak to the practical, well-designed, quality craftsmanship found in the P3500.

The dual action bars of the P3500 provide smooth, solid, reliable operation of the pump-action. The twin parallel steel bars evenly distribute the force used to manipulate the manual action, preventing twisting and binding from occurring during ejection of a discharged shotshell and the loading of a new round into the chamber.

**Performance...with an Attitude**

To satisfy contemporary tastes in defensive handgun color schemes, Stoeger introduces a new line of standard-size STR-9 pistols in several popular subdued hues. Each pistol stands out on the range, but they also distinguish themselves for quick identification when needed. Color-coordinating frame and Cerakote slide combinations include OD Green, FDE, and Distressed FDE. Also new is the Tungsten Cerakote model featuring Meprolight Hyperbright day/night sights.

**Next Level Defense**

With the resurging demand for defensive pistols, Stoeger introduces the all-new STR-9 Combat X and the STR-45. Both polymer-frame, striker-fired handguns are built around Stoeger's rugged and reliable platforms to provide enhanced control and accuracy. The STR-45 is the first Stoeger, full-sized handgun chambered in the hard-hitting .45 ACP cartridge, with a straight front strap and interchangeable backstraps for a custom fit. The STR-45 comes in 13+1 or 10+1 round capacity with either quick-read 3-dot sights or with tritium night sights and an optic-ready slide cut. The STR-9 Combat-X is designed to meet the needs of defense professionals with its standard fiber-optic sights, optic-ready slide configuration, enlarged mag well, and ambidextrous slide release. Further, this 9mm is validated for 10,000 rounds of continuous fire without failure.

## STR Micro Compact

# Freedom SERIES

## P3000 Freedom Series Supreme

Protect what's important with Freedom Series Supreme

The shotgun is widely recognized as a superior choice for defending home and property. Our Freedom Series Supreme is packed with features that ensure outstanding performance and reliability in such applications. Ghost-ring sights promote fast target acquisition. A six-position rear stock with an adjustable cheek rest delivers a custom fit, and it folds forward for compact storage and transport. The extended magazine tube holds seven shells. A rubberized pistol grip promotes solid grasp in any weather and helps mitigate hand shock when shooting heavy loads. Don't trust your security and protection to anything less than a Stoeger's Freedom Series Supreme Shotgun.

For this Freedom Series Supreme shotgun Stoeger took the solid operating system of the P3000 and paired it with select U.S. manufactured components. This allowed us to create an extended-capacity P3000 shotgun for our customers which is 922R compliant.

## Stoeger Freedom Series Shotguns

Extended magazine 12-gauge powerhouses

Freedom: the power to make choices as you see fit without restraint. So why restrain the capacity of your 12-gauge magazine if you don't have to? Go all the way with the Stoeger Freedom Series, a line of 12-gauge semi-autos and pumps with extended magazine tubes. With out-of-the-box capacity of 7+1 (M3000 Freedom and P3000 Freedom) and 10+1 (M3K), the only thing small on these bad boys is the price tag.

**M3K 3-GUN, EXTENDED CAPACITY – 12-GA, 3"**  
ITEM # 36038FS Black synthetic

Want a real for the buck? The M3K 3-gun shotgun now comes right out of the box with a 10+1-capacity magazine, making it a fantastic choice for the ambitious (yet price conscious) competitor. With its oversized bolt release and safety, extended bolt handle, beveled loading port and extended choke tubes the answer to the question "Are you ready?" is a resounding "Yes!"

For the Freedom Series shotguns Stoeger took the solid operating systems of the M3000 & P3000 and paired them with select U.S.-manufactured components. This allowed us to create extended capacity M3000 & P3000 shotguns for our customers which are 922R compliant.

The M3K comes with an oversized, anodized aluminum bolt release and extended tactical-style anodized aluminum bolt handle. Reloading is made quicker and easier with the custom/elongated carrier and enlarged, beveled loading port.
